

# Melted Masterpiece

Friday March 8, 2013, Fort Worth, Texas

## Materials:

- Old or new crayons
- Mat board/ Canvas
- Pliers
- Extension cords
- Heat gun/hair dryer

## Tips for Melting Your Masterpiece:

- Remove crayon paper
- Hair dryers are the safest tools to melt crayons  
{Heat guns, heat lamps, hot plates, irons, and candles work too}
- Material upon which you melt crayons should not bend easily or melt
- Changing the angle of the canvas can increase the speed of the crayon drips

SECONDARY LEVEL

## *Historical Component:*

*Post-Impressionism-Vincent van Gogh*

## *Wax Techniques:*

*Encaustics & Impasto Application*

## **CAUTION!**

- METAL TOOLS ARE **HOT**
- TIE BACK LOOSE HAIR AND CLOTHING
- DO **NOT** REACH OVER HOT INSTRUMENTS
