Title: Research Forum on Data Visualization

Visualization of Social Issues Team
Elka Kazmierczak <elka@elkadesigns.com>
Adriana Katzew <akatzew@massart.edu>
Yichien Cooper <yichiencooper@gmail.com>
Amber Ward <rayamber@sbcglobal.net>

Question 3 What software are you using for visualizations?

Tools for Mapping

- NVIVO
- Google Trends
- ngrams
- Flowing Data
- Voyeurtools.org
- Regender.com
- Wordle
- Google Maps
- Top 20 Data Visualization Tools
- Infographics
- Manyeyes (run on Safari browser)

Google image searches,
Word for visualizing the attached image
Microsoft Illustrator for final visuals

Text Minding: Voyant Tools
Word Cloud: tagxedo.com
Infographics: easel.ly

Adobe Creative Suite, Microsoft Excel, IBM SPSS Statistics (Statistical Package for the Social Sciences), Wordle (for the emotional impact, which is lacking in the graphs and tables), OmniGraffle for final diagramming
