

There really IS money out there! Creative Classroom Funding Ideas By Isabelle Hardesty

Dust off your wish list...

Print this out and write your ideas down. Be brave and creative. You CAN do this because you are an awesome teacher. Let's get started:

1. Think of the direction you would like to take your classroom. What is **lacking**? What would you like to help **enhance student learning**?

2. Remember to think of your **classroom goals**, **school goals** and **community goals**.

3. What engaging project can you create that is both **educational** and **may involve your community**?
