

ECOT Art Department presents

## Artwork Created! Now How Do I show the Community My Student's Art?

Presented by Dr. Natalie Blake, Hannah Brown, Peggy Martinez, Jennifer Patton, Christina Ritchey

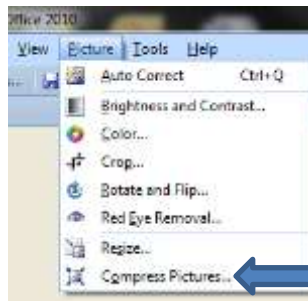

Download KompoZer for **FREE**: <http://kompozer.net/>

KompoZer is designed to be extremely easy to use so you can make attractive, professional-looking websites without needing to know HTML or web coding.

### 5 Easy Steps to creating a webpage of student artwork!

1. Save digital photos or scans of student art in a file folder.  
Save as compressed .jpg files.

You can easily compress an image file in Microsoft Office Picture Manager

2. Important: Create a new URL page in KompoZer and save the file in the same folder as the photos of artwork.

3. Insert a table into the URL page

4. Insert the photos into the table

5. Add labels to the artwork and change the fonts/background color
